

Mathias & Sons supply, brand and distribute corporate clothing, workwear and PPE meeting the requirements and compliance obligations of our customers throughout the UK. Distribution of products is via an appointed national courier service or by the company's own transport.

A Quality Management System is operated throughout the company which meets, as a minimum, the requirements of ISO 9001. To ensure continual improvement quality objectives have been established that can be measured and monitored which are reviewed on a regular basis by the Management Team. The Quality Management System, including the policy, procedures and objectives, are reviewed for their suitability, as a minimum, annually through the Management Review.

This company undertakes to supply only safety equipment that fully complies with the standards and regulations relating to those products. Where appropriate, this company will maintain up to date technical files to ensure that regulatory compliance information can be supplied upon request. Where products are sourced from external organisations which hold technical files relating to the products being offered, this company will request confirmation that these files are current, complete, contain appropriate conformity assessment information and, where relevant, regulatory compliance certificates and will take necessary steps to confirm the validity of the compliance documentation held by that external supplier in respect of the products being sourced.

The Management Team ensures that all employees are made aware of the Quality Policy and the Quality Management System and that adequate awareness, training resources and competency are established.

The Quality Policy is made available throughout the company and to relevant interested parties.
